EDUCATION

B.S. in Business Analytics and Information Systems

University of South Florida

May 2026

Tampa, FL

TECHNICAL SKILLS

Data Analysis & Reporting: SQL (PostgreSQL), Microsoft Excel (Advanced: Pivot Tables, XLOOKUP, Data Analysis ToolPak), Power BI, Tableau

Programming & Databases: Python (Basic), PostgreSQL, DBeaver, Google Cloud Platform

Analytical Methods: Data Cleaning, Data Validation, KPI Analysis, Dashboard Development, Database Normalization, A/B & Hypothesis Testing

Tools: Microsoft Office Suite, GitHub

TECHNICAL PROJECTS

HOSPITAL DATABASE & ANALYTICS PROJECT | *PostgreSQL, SQL, Tableau, GCP, DBeaver* | USF | Jan 2026

- Designed and implemented a normalized relational database schema managing patient, billing, and insurance datasets, ensuring strict data integrity via primary/foreign keys and constraints.
- Extracted, validated, transformed, and analyzed relational data using SQL queries (JOINS, GROUP BY, aggregates) to support operational reporting, KPI analysis, and financial performance insights
- Connected a cloud-hosted PostgreSQL database on Google Cloud to Tableau to create interactive dashboards that communicated operational trends and supported data-driven business recommendations.

MARKETING CAMPAIGN A/B TESTING ANALYSIS | *Excel, Statistical Modeling* | USF | Sept 2025 – Dec 2025

- Analyzed a dataset of 9,400+ customer observations to evaluate marketing performance and determine statistical significance between test and control groups.
- Applied hypothesis testing and statistical analysis to determine whether observed performance differences were statistically significant.
- Developed Excel-based reports and presented statistical findings, translating analytical results into actionable business recommendations for stakeholders.

PROFESSIONAL EXPERIENCE

SPECIAL EVENTS SUPERVISOR | Tampa, FL

University of South Florida Recreation and Wellness

Jan 2025 – July 2026

- Supported operational planning and execution of campus events, coordinating scheduling, resource allocation, and stakeholder requirements across multiple facilities and fields
- Acted as primary point of contact for event stakeholders, gathering requirements, resolving issues, and ensuring accurate execution of event logistics
- Managed real-time operational adjustments for high-attendance events (200+ participants), maintaining efficiency, compliance, and consistent service delivery

FACILITIES STAFF | Tampa FL

University of South Florida Recreation and Wellness

Aug 2024-July 2026

- Supported daily operations across two high-traffic recreation facilities, ensuring efficient resource usage, scheduling coordination, and consistent service delivery
- Maintained operational accuracy by enforcing policies, resolving issues, and adapting to fluctuating demand in a structured, data-informed environment

ADMINISTRATIVE AND OPERATIONS INTERN | Kingston, JA

Spur Tree Spices

Jun 2024 – Aug 2024

- Digitized and structured paper records into an online database, improving data accessibility by 30% while strengthening data accuracy and record management processes
- Supported accounting and sales operations through data entry, inventory tracking, and documentation of financial and operational records
- Audited financial and inventory datasets by validating records and identifying discrepancies to support accuracy in reporting and reconciliation
